

Giovanni Ranieri

Master Student at EPFL in **Communication Systems**. High interest in Mathematics applied to communications, embedded systems and wireless technologies. *Currently looking for a Master Thesis in industry.*

Phone: +41 79 152 78 42
Email: giovanni.ranieri@epfl.ch
Portfolio: www.flxinxout.github.io
Nationalities: Swiss, Italian

EDUCATION

Swiss Federal Institute of Technology (EPFL), Lausanne	
• Master of Science in Communication Systems, Wireless Communication Specialization	Sept 2024–Present
• Bachelor of Science in Communication Systems – Grade 5/6	Sept 2020– June 2024

WORK EXPERIENCE

EPFL Xplore, EPFL – Robotic Student Association	
• <i>Vice-President Research</i> – Lead the EPFL Xplore Research pole – strategy, event programming, and external representation of the association.	Sept 2025 – Present
• <i>Software Systems Engineer</i> – Responsible for the entire software system of a Martian Rover, leading a team of 20 students and winner of 2025 edition of the European Rover Challenge.	Sept. 2024 – Sept. 2025
EPFL, Student Assistant	
• VILAB – Contributed to the creation of the new IC Bachelor course “Communication System Project”	Sept 2023 – Jan 2024
• Assistant in Bachelor Classes: Introduction to Quantum Computing, Making Intelling Things	Jan 2024 – June 2025

PROJECTS

Master Project, 5G Software Workloads on Neural Processing Units	
• <i>5G Signal Processing optimization on Xilinx Platforms. Evaluation of performance compared to CPU implementation from 5G open-source srsRAN.</i>	Jan 2025 – June 2025
Bachelor Project, Speeding up the Quantification of Data Staleness in DBO	
• <i>C++ Implementation of a critetion for a well-suited optimizer for dynamic black-box functions. Evaluation of performance compared to state of the art methods.</i>	Jan 2024 – June 2024
• Contribution to Accepted NeurIPS’24 Paper “ <i>This too shall pass: Removing Stale Observations in Dynamic Bayesian Optimization</i> ”	

SKILLS

Mathematics & Communication Systems: DSP, Mobile Networks, Navigation
Programming & Tools: C/C++, ROS2, VHDL/Verilog, Python, Assembly, Docker
Leadership: Managed timelines and integration between software subsystems
Languages: French & Italien (Native), English (Fluent)

OTHER ACTIVITIES

Sports: Climbing, Swimming
Students 4 Students: Student Assistant for Analysis and Physics in a preparation week for new EPFL students
